How about 10:00 on Wednesday morning at the school. The front doors will be locked, but there is a buzzer there that you can ring to get in.

See you then.

Kim

Hi Kim – Thanks very much for your response, and I completely understand about the end of the school year.

Would 9:30am or 10:00am on Wednesday morning at the school work for you? If you are unable to get an electronic copy of the report, we would be happy to copy it and get the original back to you as well. Whatever information the report contains, it will be helpful.

Thanks again,

Steve

Hi Steve,

My apologies for the delayed response..you caught me during the last few days of school. So a couple of things.

I would be very open to meeting with you on Wed. the 27th. If you and/or your team can be flexible and come to the school, I can be flexible and make just about any time that day work.

As for the report, I am happy to share that. I have a request in for an electronic copy of the report, which is about 5-6 years old. While I also have a physical copy, it is just a large document that I hate to copy, but I will do that if I can't get a hold of an electronic version by Wed.

It turns out, that contrary to my memory, it is a Phase I site assessment and not a Phase II assessment so I don't know how helpful it may be, but you are welcome to it.

Take Care,

Kim

**Subject:** Request for Report

Hello Ms. White – This is a follow-up to the message I left with your receptionist earlier today, in which I requested a copy of the report documenting soil sampling that was performed as part of the 2010 renovation of the Silverton School. The EPA has been unable to obtain a copy of this report from other sources, and I understand that you have access to the original report.

Several of us from EPA will be in Silverton next Wednesday, the 27<sup>th</sup>, and we would appreciate the opportunity to visit with you about our activities in the Animas River watershed and to answer any questions you might have for us. If possible, we also could pick up a copy of the report at that time.

Thank you for your time,

Steve Wharton
